# INDUSTRY LEADING SOLUTIONS, TAILORED TO KEEP YOU MOVING

Motion Fluid Power Solutions have developed a comprehensive Hose and Fittings Mobile Workshop program, designed to provide immediate response to your hose requirements enabling maximum uptime.

Motion Fluid Power Solutions Mobile Workshops can provide you with a solution! They give you the ability to have readily available hose, fittings, adaptors, and hose assemblies to reduce downtime and increase productivity.

## FULLY EQUIPPED

Mobile Workshops come complete with assembly equipment including crimper, cutter, benches, hose reel rollers and air lines. The larger Mobile Workshops can be modified to include testing equipment if required. Specific stock profiles are developed in consultation with customers to ensure you have the right products for the application.

## TRAINING AND SAFETY

We offer comprehensive assembly training as part of our overall package with a paramount focus on safety, and we will liaise with you to schedule training dependent on site requirements and staff availability.

## RELIABLE SERVICE AND SUPPLY

As part of the implementation phase, Mobile Workshop stock profiles are developed in line with the site-specific requirements to ensure that the stock is ready in line with the Mobile Workshop completion. We offer complete service and on-site support and will collaborate with you for specific labor requirements.

## WHY CONSIDER A MOTION FLUID POWER SOLUTIONS MOBILE WORKSHOP

- Increase productivity through maximising product availability with readily available stock on hand 24/7.
- Mobile Workshops are fabricated to ensure a safe, ergonomic, and efficient work location providing a complete solution for hose manufacture and storage.
- Built for safety and reliability in the most remote locations.
- The Workshops maximise space with rear door mounted hose reel rollers, storage cabinetry options and hose manufacturing work benches.
- Stock profiles that provide engineered matched systems including both our Gates® and Exitflex® Hose and Coupling Ranges.
- Flexible rental, rent-to-buy or outright purchase options are available.

# Motion Fluid Power Solutions Mobile Workshop

## FEATURES AND BENEFITS

### CONVENIENCE

Affording customers the ability to have products available 24/7, providing an efficient and effective resource for making hose assemblies at any time.

### CONTAMINATION CONTROL

In many instances system failure is attributed to contamination. Workshops can be supplied complete with durable storage cabinetry and are equipped to give

customers the ability to manufacture hose assemblies that are free of contamination.

### SAFETY, RELIABILITY AND QUALITY

Workshops have been designed, developed, and manufactured to ensure a safe and reliable solution for the most demanding locations. They are stocked with engineered matched products to ensure safety, reliability and quality.

## THE PROCESS

The team at Motion will meet with you to confirm your requirements on tailoring the best solution.

The Motion team will put forward a detailed proposal for you to review.

Upon acceptance of this proposal, we can initiate the manufacture of your Mobile Workshop, followed by final design sign off.

Whilst your new Mobile Workshop is being manufactured, we will collaborate with you to ensure that product and training requirements are confirmed.

When your new Workshop is delivered, we will commission, finalise stock layout and provide training as agreed.

## FREQUENTLY ASKED QUESTIONS

### Are there options available to customise the Motion Fluid Power Solutions Mobile Workshops?

Motion Fluid Power Solutions Mobile Workshops have been developed with standardised options for specific industries and customer demands. Throughout the process we can collaborate with you on any specific customise.

### Who would use a Motion Fluid Power Solutions Mobile Workshop?

Customers with high demand of hose assemblies, fittings and adaptors that require a safe and efficient option that gives them the ability to manufacture hose assemblies on-site and in remote locations. Providing a solution to reducing downtime and increasing productivity.

### What is the lead time on a Motion Fluid Power Solutions Mobile Workshop?

From order confirmation to site implementation, the lead time is approximately 10 to 12 weeks.
